

Klaasen & Co

Klaasen & Co operates a poultry processing plant, specialised in the slaughter and cut-up of spent hens (old laying hens). Under our own PLUVERA brand, we offer a full range of frozen hen products worldwide - whole hens as well as various hen parts. For several decades, our hens have been a familiar product all over Europe, Central and West Africa, and parts of Asia. PLUVERA hen meat is also perfectly suitable as a raw material for the meat processing industry. In close collaboration with our partners and customers, we always strive to tailor-make our products for specific applications.
